WEBINAR SERIES

Join us for a FREE Webinar

DATE: **Wednesday, March 14, 2018**
11:00 am EDT; 12:00 Buenos Aires, 10:00 Kansas

SPEAKER: **Dr. Fernando Salvagiotti**
INTA Oliveros, Santa Fe, Argentina
Dr. Ignacio A. Ciampitti
Department of Agronomy, Kansas State University,
Manhattan, Kansas, US

Dr. Fernando Salvagiotti: Nitrogen Nutrition: Is Biological N₂ Fixation Sufficient for High-yielding Soybeans?

High-yielding soybeans depend on biological N fixation and soil N for nutrition, but this supply is not always sufficient. The correction of this gap in N nutrition will be discussed.

Dr. Ignacio Ciampitti:
Breaking Yield Barriers in Soybean through Crop and Nutrient

Management. The yield gap between potential and actual on-farm soybean yields results from management practices and the environment. Dr. Ciampitti will discuss yield-enhancing factors such as improved balanced crop nutrition, row spacing, and seeding rate.

CAN'T ATTEND? Register & you'll receive details on how to see this on YouTube.
